DRILLING INTO THE FUTURE

Drilldown "2021"

Registration and Programme

After a false start in 2020 due to Covid restrictions all is back on track and Drill Down 2023 is shaping up to be an extraordinary event, with 60% of the sponsorship opportunities sold. With the backing of our partner companies and sponsors we have constructed an exciting conference programme that includes Keynote Speakers, an excursion to Waiheke Island and the opportunity to mix and mingle with your fellow delegates and the event sponsors within the exhibition hall over the duration of the Conference.

Drilling into the Future is our theme for this event, we have worked with our partnership companies to bring to the table their leading edge technologies and solutions that will assist the drilling industry looking ahead.

We understand that your time is valuable and attending this event may be a disruption to your business. Our intent is to provide added value for both delegates and sponsors that attend this event along with an excellent opportunity to:

- Discover new technologies

- Rekindle or create new business relationships and friendships.

The NZDF Conference would not be possible without the support of our partnership companies and sponsors. We would like to thank these companies and are proud to announce:

All proceeds from the auction will be donated to the Key to Life Charitable Trust, which is founded by Mike King. This trust is a community peer support group, aiming to change the way New Zealanders think, act and feel about mental health and suicide. They aim to affect positive social change surrounding the population trends of depression and suicide in New Zealand by working with mental health professionals, service providers, astute business leaders, and our communities.
